Dear JUSTIN TOH,

## **LETTER OF APPRECIATION FOR CREATE-THON 18**

Thank you for your participation in the inaugural Create-thon 18 conducted on 20 and 21 Jun 18.

I hope that the event has been useful in equipping you with the right skills and inspired you with greater confidence to undertake the task of creating engaging bite-size content. I trust that you will continue with the effort and sustain the momentum back in your unit as a key advantage of developing our own content is the ownership by our trainers in determining the outcomes of our soldiers' learning. Ability to generate relevant content in a sustainable way will be a major step to actualise our vision of a Learning SAF.

I was made known in the post event review that there was a shortage of food at certain juncture of the event. I had earlier given direction for the food to be made available throughout but it was not to be. There were several aspects we could have done better to ensure your best experience.

Do accept my sincere apology.

Once again, thank you for being part of this exciting journey in content creation.

Yours sincerely,

**BG CHUA BOON KEAT**  
COMMANDANT  
SAFTI MILITARY INSTITUTE
